- 4. Note that trade profits do not compound***
- 5. You can always update your EA (bot) to a higher capital EA. The corresponding capital must be available in your broker account for EA to work.***

(ensure to use recommended link in this document for best outcomes)
 - **Cent account** – for users with smaller capital size: \$100 - \$1000

IMPORTANT NOTICE

- Tanance EA is optimized to work with only partner brokers.
- Our choice of partners is limited to licensed brokers with a global reach.
- Choose your preferred broker and sign using the provided links above.
- **ENSURE YOU SIGN UP ONLY WITH THE ABOVE PROVIDED LINKS as your EA (bot) may fail to sync and trade effectively if you do otherwise.**
- Existing Exness and TrustCapital users are advised to create new accounts with the above links for optimum user experience.

IMPORTANT

IF YOUR TRADING CAPITAL IS LESS THAN \$2000, THIS IS AN IMPORTANT GUIDE FOR YOUR SET UP

1. Tanance EA is customized to trade with specific capital sizes.
2. The capital sizes are as follows: \$100, \$300, \$500, \$1000, \$2500, \$5000, \$10,000, \$20,000.
3. *Users trading with any capital size less than \$2500 should use Exness for Tanance EA to work for them.*
4. Exness provides two major types of accounts: Standard and Standard Cents.
5. If your trading capital is less than \$2500, **choose Standard Cents** accounts when creating your MT5 account on Exness and select 1:2000 leverage.
6. Please note that this does not expose your account to risk, rather it does the opposite, allowing your EA to use the smallest amount of your capital to perform trades.
7. Your expected profit% is still the same as users with larger capital on Standard accounts.
